### DETAILED ACTION

Claims 56-71, 95, 96 and 103-109 are pending in the application.

This action is in response to applicant's amendment filed February 7, 2003. Claims 56 and 95 were amended.

#### *Response to Amendment*

Applicant's arguments filed February 7, 2003 have been fully considered with the following effect:

1. The applicants amendments are sufficient to overcome the 35 USC § 112, first paragraph rejection of claims 56-71, 95, 96 and 103-109 of the last office action, which is hereby **withdrawn**.
2. The applicant's amendments are sufficient to overcome the 35 USC § 112, second paragraph rejections of claims 56-71, 95, 96 and 103-109 of the last office action which are hereby **withdrawn**.

In view of the amendment dated February 7, 2003, the following new grounds of rejection apply:

#### *Specification*

3. The amendment filed February 7, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not

Art Unit: 1624

supported by the original disclosure is as follows: the amendment to the structure of Formula III where an oxygen atom was inserted between the P atom and Z.

Applicant is required to cancel the new matter in the reply to this Office Action.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 56-71, 95, 96 and 103-109 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment with respect to the structure of Formula III where an oxygen atom was inserted between the P atom and Z is not described in the specification for the genus of Formula III. Nor is the insertion of the H atom on the negatively charged oxygen atom.

Applicant is required to cancel the new matter in the reply to this Office action.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 1624

5. Claims 56-71, 95, 96 and 103-109 are rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a specific asserted utility or a well established utility. The invention as claimed herein where the structure of Formula III contains an oxygen atom between the P atom and Z is not described in the specification and thus there is no statement of utility for the compounds where there is an oxygen atom between the phosphorus atom and Z. Nor is the insertion of the H atom on the negatively charged oxygen atom.

#### *Claim Objections*

6. Claims 62, 65, 104 and 105 are objected to because of the following informalities: claim 104 is a duplicate of claim 62 and claim 105 is a duplicate of claim 65. Appropriate correction is required.

#### *Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR

Art Unit: 1624

1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
